THE PETROLEUM (ZUBEDA HAMISI MSAKATI PETROL STATION) (CONSTRUCTION APPROVAL) NOTICE, 2020

- |                                   |                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Citation                          | 1. This Notice may be cited as the Petroleum (Zubeda Hamisi Msakati Petrol Station) (Construction Approval) Notice, 2020.                                                                                                                                                                                                                                                                                                   |
| Interpretation                    | 2. In this Notice, unless the context otherwise requires-<br>“applicant” means Zubeda Hamisi Msakati Petrol Station of P.O Box 15374, Arusha;<br>“Authority” means the Energy and Water Utilities Regulatory Authority established under the Energy and Water Utilities Regulatory Authority Act; and<br>“construction approval” means an approval issued by the Authority pursuant to section 128(1) of the Petroleum Act. |
| Cap. 414                          |                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Cap 392                           |                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Granting of construction approval | 3. The Applicant is hereby granted a Construction Approval to construct a petroleum products retail outlet at Kelema Maziwani Village, Chemba District in Dodoma Region subject to the following conditions:<br>(a) the retail station shall be constructed in accordance with the Tanzania Bureau of Standards TZS 1115:2009 and TZS 1079:2009;                                                                            |

Cap 340

- (b) due care shall be exercised during excavation and installation of underground tanks;
- (c) the layout of the retail station shall meet the minimum safety distances in accordance with Tanzania Bureau of Standards TZS 1079:2009;
- (d) the underground tanks and associated pipelines shall be well protected from corrosion and the back filling shall be done properly using non-corrosive materials;
- (e) the underground storage tanks and pumps together with the connecting pipes and fittings shall be constructed so as to prevent any leakage of fuel;
- (f) underground storage tanks and dispensing pumps shall be calibrated by the Weights and Measures Agency established under the Weights and Measures Act;
- (g) the forecourt of the retail station shall be paved with impervious materials at the pump island with a drainage provision connected to oil and water separator;
- (h) an emergency shut off switch shall be installed in a conspicuous and accessible area;
- (i) ensuring that there are adequate and clean toilet facilities at all times;
- (j) clear and visible safety warning signs shall be installed at the entrance, exit and at the dispensing pumps, including "switch off engine", "switch off mobile phone" and "no smoking";
- (k) each storage tank shall be fitted with vent pipes with a minimum height of 3.6 metres;
- (l) each pump shall be protected with crash barriers with the height of one meter above the ground;
- (m) the offloading manhole shall be constructed in accordance with good petroleum industry practices and the offloading receiving pipes

- shall be provided with couplings to prevent spillages during offloading;
- (n) the retail station shall be covered with a canopy covering at least the pump island and constructed in accordance with good petroleum industry practices; and
  - (o) a price board shall be erected in a conspicuous place.

Expiry of  
construction  
approval

4. The construction approval shall automatically expire or cease to have effect where such a construction fails to take effect within twenty four months from the date of issue.
